

# E24th Street Chilled Water Leak Repair

## Beginning

In late August 2022, the building technicians noticed that the chilled water plant was losing hundreds of gallons of water each day. It was also noticed that the top floors of Rhodes Tower were much warmer than usual.

## Evidence

‡

than

line

to

and find the physical pipe. Once the pipe had been found Relmec would be called out to repair the damaged pipe.

## Acknowledgments

I would like to thank Sandra Vasenda, Jeremy Johnston,
