

The Office of Disability Services is charged with determining who is an eligible person with a disability and coordinating the accommodation needs of individuals with disabilities who can participate in their programs. Hundreds of students are served with a variety of disabilities, including learning disabilities, chronic health issues, attention deficit disorders, psychological conditions, visual impairments, mobility impairments, and hearing impairments. Anyone who is requesting accommodations due to a disability is required to make that request through the Office of Disability Services located on the main campus in Main Classroom building, Room 147.
